

April 30, 2010

To whom it may concern,

I have had the pleasure of knowing Amy for many years as a professional DJ for many of my business and personal parties. I first met Amy when she provided her services for several large corporate events that I hosted for Bank of America. Amy always did a great job tailoring the music to the event or specific theme we needed. In fact, Amy was so great that I also used her for several parties at our personal residence and have referred her to friends for their parties too! We continued to use Amy's services with my current company, Creative Sign Designs for our company Holiday party. Amy always makes sure everyone is having a great time and can certainly foster "audience participation" when required. I had the pleasure of recently seeing her DJ at my children's elementary school where she was making sure all the young kids and adults were enjoying the music and having a great time. I can't say enough good things about Amy and I will continue to use her for all my business or personal parties in the future and would recommend her highly to anyone that is interested in her services.

Sincerely,

Kelly Crandall
